(Designation) Director of Veterinary Services, Madras.

*To* The Secretary to the Government of Madras,

DEVELOPMENT Department.

Sir,

The necessity for a store room at the Veterinary Hospital, Mangalore has been keenly felt for the past three or four years, but owing to want of funds, it has not been possible to do anything in this direction. The accommodation available at the Veterinary Hospital at present consists of an office room, a dispensary room and a microscope room, recently constructed. The dispensary room is now crowded with furniture and stores and hardly provides space for the compounder to do writing work. Stores in stock have to be kept separately under lock and key and this is not possible now owing to the absence of a store room. For want of proper and adequate

accommodation, almirah cup-boards, appliances and unserviceable stores such as tins, dealwood cases etc., are also being stocked now in the dispensary room. The outfit of the local Touring Veterinary Assistant Surgeon has to be accommodated in one or other of the existing rooms. I, therefore, consider that a store room is quite essential at the Veterinary Hospital, Mangalore.

3. The Executive Engineer, West Coast Division, who was addressed in the matter has furnished me with plan and estimates amounting to Rs.1,580/- for the above work which are herewith forwarded and I request Government to be pleased to accord their administrative approval to the same.

4. Necessary funds have been provided for the work in the Minor works budget of this department for 1938-39.

I have the honour to be,
Sir,
Your most obedient servant,

K Ramadas

Director of Veterinary Services.

Report to accompany the estimate for improvements to Veterinary Hospital, Mangalore, for providing a Store Room. Rs. 1580/-.

Item No.8/R.166 in the Register of Buildings.

Capital Cost .... Rs. 5418/-.

The Estimate is prepared as per District Veterinary Officer's letter R.O.C.No. 4877/36, dated 8-7-1937. At present, there is no Store room and the dispensing room is crowded with stores also. It is proposed to extend the building including the front and rear verandah to provide a Store room 16' X 12 &1/8' as per plan approved by the Director of Veterinary Services.

The D.V.S. has not explained the necessity for extending the front and rear verandahs of the Vety. Hospital bu[illegible] Mangalore. He is requested to justify the need for their extension and also to furnish separately the cost of

(1) constructing the store room alone; and

(2) extending the two verandahs.

From (Name) P.T.Saunders Esq, O.B.E, M.R.C.V.S, I.V.S,

(Designation) Director of Veterinary Services, Madras.

To The Secretary to the Government of Madras,

DEVELOPMENT Department.

Sir,

Ref:- Government Memorandum No.1029-III/38-1, dated 7th March 1938.

I have the honour to state that a front verandah of the Veterinary Hospital buildings at Mangalore is indispensable for the following reasons:-

The building faces south and is therefore exposed in the full force of the heavy west coast monsoon. The front verandah will protect the building from the monsoon. Further, the basement is kept rather high to suit the West Coast conditions and the verandah will facilitate handling heavy stores in and out of the store-room. For architectural reasons also, a front verandah is considered necessary.

Though the rear verandah is not considered absolutely essential from the technical point of view, yet it would afford convenient space to keep the rabid dog cage well away from the icroscope room.

2. The cost of constructing the store room alone, according to the Executive Engineer, West Coast Division, is about Rs.1,050/- vide Estimates on pp.41-44 supra In this case, however, additional sun-shades will be necessary for the front door and the rear window at a cost of Rs.60/- and so the cost of constructing the store room alone may be taken at about - Rs.1,110/-. The cost of constructing the verandahs will be about Rs.265/- each. The cost of constructing the store room and the - front verandah alone will therefore be about Rs.1,050/- plus Rs.265/- (for verandah) plus Rs.30/- (for rear sunshade) -- Rs.1,345.

3. The plan and the estimates received with the Government Memorandum quoted above are herewith resubmitted.
